ABOUT US

WHO WE ARE

The International Humanity Foundation (IHF) is a non-religious, non-political, and non-profit organization that was founded by Carol Sasaki in 1987.

Our mission is to educate the poor and to educate the world about the poor.

We believe in a “pass it on” philosophy. Those of us who have received an education pass on the gift of knowledge through teaching or sponsoring a child. In doing so, we envision a place where citizens become truly knowledgeable about poverty.

The “pass it on” philosophy also defines the way we run our organization, which functions almost entirely through the efforts of volunteers and sponsors from all over the world. We are changing the world one child at a time.
MISSION

To educate, through real life experiences, not only our impoverished children, but also, equally, to educate many global citizens about the reality of impoverished communities and other cultures and to teach global leadership skills needed in the multi-layered realities of running an NGO (non-governmental organization) in such environments.

OUR EXPENSES

In 2016, we spent a total of USD $139,951.38 to implement programming that impacted more than 500 children weekly.

We are proud to say that 66% of our expenses, or USD $92,367.66, directly impacted the children we served. When we include the other 29% that went towards Administrative fees and accommodating our Volunteers, a total of 95% of our expenses went towards caring for the children in our reach.

All funds given to IHF by our generous sponsors go directly to the program(s) they selected for their sponsored child or children. None of those sponsored funds go toward advertising or large salaries. The ongoing costs of operating our local Centers - which includes electricity, small stipends for administration, and providing food and modest accommodations for our international Volunteers - are funded by other means, like volunteer fees and general donations. However, we still use most of that unrestricted funding towards caring for as many children as possible through our programs.

OUR FINANCES

OUR INCOME

With the help of our generous sponsors and donors, we were able to bring in USD $121,189.77 in 2016. Sponsors were especially fond of supporting our Orphan Care Program and the IHF Education Program.

While Volunteer Fees and General Donations accounted for 36% of our income, or USD $43,628.32, only USD $40585.90 of that went toward covering Administrative fees and Volunteer accommodations.
